## PROFESSIONAL EXPERIENCE

---

**June 2023 - Present:** Mobile and Backend Developer at **Box Africa**, a multinational IT services company based in **Abidjan (Ivory Coast)**. My missions consisted of :

- To ensure the development and maintenance of **Alliance CI**'s Diapazon mobile application;
- Provide, as a backend, APIs for Alliance's Backoffice management application, as well as maintain the Backend;
- To take charge of the Backend part of the Place Manager project of Place Africa, by ensuring the development and its provision to the Frontend;

**Dec 2019 - Oct 2023 :** Business Application Developer and EDM Consultant at **FINASHORE**, a subsidiary of **BMCE BANK** based in Morocco, in Casablanca (Morocco) on behalf of **SONERMA**.

My missions consisted of :

- Ensure the compliance of the data of the Moroccan ANCFCC cadastre project and help to send these data/documents to their ONEDOC EDM;
- Develop a Desktop application for the entry, management and control of data/documents provided by the Ministry of Cadastre Registers of Morocco;
- Manage the transfer of part of the data/documents from the Cadastre Register to the FILENET EDM;
- Provide a web application for the visualization and control of data/documents from civil registries, as well as the preparation of data to be sent to their EDM;
- Provide an application for entering, managing and controlling data/documents of the CNSS of Morocco, as well as the provision of a flow of data to their DOCUBASE EDM;
- Configure the LogicalDoc open source DMS on behalf of BMCE;
- Prepare and provide an App to **BMCE** for the upload of data/documents to LogicalDoc;
- Correction and maintenance of some existing applications such as the Cortex Application for the management of French survey input, as well as the application for the management of the CIMR Morocco.

**Feb 2019 - Sept 2019 :** completed a Pre-Employment Internship as an IT Support at **SCCONAS ASSURANCE**, covering :

- Supervision of the operation of ATLANTIS, Sconas' insurance management software
- IT Network Support Support

**Sept. 2018 – Feb. 2019 :** worked as a data entry operator and manager in an Internet café in Abidjan (Ivory Coast) in the commune of Yopougon located in Ananeraie. My missions consisted mainly of data entry, printing, network management and the creation of document or blueprint for customers.

**Feb 2018 – May 2019 :** completed a school internship at the Regional Directorate of the **Ministry of Agriculture and Rural Development** of the N'ZI Region located in Dimbokro (Côte d'Ivoire). My mission was to develop a Cadastre management system, which was tested and deployed in a pilot phase on the Ministry's machines.

---
